# ABOUT HENCO & SUSTAINABILITY

## Sustainability, also our concern

Sustainability is an important concept at Henco. Apart from offering sustainable solutions, such as underfloor heating, we also want to operate sustainably as a company. This implies taking the 3 P's into account: people, planet and profit.

To us, corporate sustainability means paying attention to these three pillars by taking a variety of actions internally. For instance, it is important to deal sustainably with internal employees, to conduct a correct environmental policy and to use our profits wisely.

Henco products enable the following Sustainable Development Goals:

Henco is committed to be net zero carbon by 2050. Therefore, we measure, manage and monitor both our energy consumption and our CO<sub>2</sub> emissions. It is Henco's objective to decrease its CO<sub>2</sub> intensity for scope 1 and 2 with 70% by 2030, taking 2019 as a base year,

	Focus	Projects	2026	2030	Net zero carbon 2050
Scope 1 + 2	Energy use (in CO <sub>2</sub> intensity)	<ul style="list-style-type: none"> <li>• Drive energy efficiency</li> <li>• Use renewable energy</li> </ul>	Target 30% versus 2019	Target 70% versus 2019	
Scope 3	Raw materials, waste, travel, transport, end of life	<ul style="list-style-type: none"> <li>• Reduce, reuse, recycle</li> <li>• Travel consciously</li> <li>• Perform life cycle and circular design assessments</li> </ul>	Target 10% versus 2019	Target 23% versus 2019	

### ISO14001 certified

All the effort we put into environmental matters resulted in Henco getting through the certification audits for ISO14001. After 3 days of audits on various business processes, we achieved a very positive audit result without any recorded remarks. The auditor praised, among other things, the enthusiasm of our employees and the broad demonstration of sustainability throughout our processes.

### A silver medal from Ecovadis

The online platform Ecovadis rates companies on their Corporate Social Responsibility (CSR) performance. They look at various issues such as environmental efforts, human and labour rights, sustainable procurement and business ethics. Henco's efforts in these areas were rewarded with a silver Ecovadis medal. As Henco puts its money where its mouth is, Ecovadis places Henco among the 19% best scoring companies. And we are quite proud of that

### Aalberts Sustainability Award 2021

Aalberts also saw that we at Henco value sustainability and that we show this through all our actions. In 2022 we were very pleased to accept the Aalberts sustainability awards 2021.

### The VOKA sustainability charter: SDG pioneers

The VOKA sustainability charter was achieved by Henco for the 3rd year in a row. With this, we have officially been appointed as SDG pioneers. Sustainability is held in high esteem at Henco, this certificate proves it and we are proud of it.

### Environmental and health statement Cochebat

The French HVAC association Cochebat has tested and approved our Henco multilayer pipes and we were rewarded with inclusion in their Environmental and Health Statement.

### Interseroh Certificate Resources Saved

In 2020 and 2021 Henco received the Interseroh Certificate for Resources Saved in Germany. By recycling materials in 2021, a calculated 42,269 kilograms of resources and, in addition to this, 5,521 kilograms of greenhouse gases were saved.

### Valobat

Henco joined Valobat voluntarily in 2023. Valobat is a French eco-organization for the building industry approved by the public authorities, offering services to accelerate the circular economy in the building industry.

Henco Ecoline

## Type: HNA-ECOLINE-SET

Basic set for Inliner  
 Basisset voor Inliner  
 Set de base pour Inliner  
 Grundsatz für Inliner

Article number	Bag / Box	Type
HNA-ECOLINE-SET	1 pc. / -	

Composition:  
 1x 9HNA (T-piece)  
 4x HNA (Bracket set)  
 1x HNA-EK05 (Adapter HNA-EK)  
 1x HNA-INLB (Base plate for inliner)

The Henco ECO-line is an energy saving solution for recirculation loops, which limits heat loss between supply and return pipe.

A separate pipe for the circulation water is no longer required.

Designed on the Henco Super Size concept, it also combines modularity and easy installation.

### ONE CONCEPT FOR ALL DIMENSIONS FROM 40 UP TO 75MM

- Cost effective
- Easy installation
- Less space consumption
- Anti legionellosis

### Additional items to complete the ECOLINE installation \*
